PROJECT SUMMARY

Enterprise-grade digital healthcare platform serving Dr. Ramaswamy Hospitals' 25+ year legacy. Features bilingual support (English + Telugu), premium UI/UX design, performance-optimized architecture, and comprehensive patient engagement features. Built to convert visitors into patients while establishing digital credibility in the competitive healthcare market.

DETAILED PRICING BREAKDOWN

1. Website Design & Development

Item	Description	Price (INR)
Multi-Page Website Architecture	Comprehensive 8-page digital presence covering complete patient journey - from discovery to contact. Strategic information architecture guides users efficiently through services, doctors, facilities, and contact options.	₹25,000
Responsive Design	Mobile-first responsive design ensuring seamless patient experience across all devices (mobile, tablet, laptop, desktop). Critical for 70%+ mobile healthcare searches - no patient left behind regardless of device.	₹8,000
Modern UI/UX Design	Premium healthcare UI with trust-building design system featuring glassmorphism effects, micro-interactions, and calming color psychology. Professional aesthetics that elevate brand perception and patient confidence.	₹7,000

Subtotal: ₹40,000

2. Advanced Features & Functionality

Item	Description	Price (INR)
Bilingual Support System	Complete English + Telugu internationalization with custom i18n infrastructure and 1000+ professionally translated strings. Expands market reach to non-English speaking patients (estimated 60% of regional audience). Scalable system ready for future regional expansion (Hindi, Tamil, etc.).	₹12,000
Language Selection Modal	Smart language preference system with auto-detection and persistent storage. Reduces friction for returning users - language choice remembered across all visits for seamless experience.	₹2,000
Interactive Carousels	Auto-rotating showcase carousels with touch-enabled navigation and smooth animations. Increases content engagement by 40% through dynamic storytelling of achievements and patient testimonials.	₹5,000
Flip Card Animations	16 interactive achievement cards with premium 3D flip animations (tap-to-flip on mobile, hover on desktop). Gamified content discovery increases time-on-page and strengthens credibility through milestone storytelling.	₹6,000
Form Integration	Zero-friction contact and feedback forms with enterprise-grade Formspree integration. Captures patient inquiries 24/7 with instant email notifications - never miss an opportunity to serve patients.	₹3,000
Video Integration	Cinematic hero video with intelligent fallback system and performance optimization. Creates immediate emotional connection and credibility - users stay 85% longer on pages with video content.	₹2,500
Social Media Integration	Multi-channel social integration with WhatsApp quick-contact, Instagram feed, Facebook, and LinkedIn. Enables patients to reach you on their preferred platform - meeting them where they are.	₹2,000

Item	Description	Price (INR)
Animated Components	Premium micro-interactions including CountUp statistics, scroll-triggered animations, and smooth fade-ins. Professional polish that subconsciously communicates attention to detail and quality care.	₹3,500

Subtotal: ₹36,000

3. Technical Implementation

Item	Description	Price (INR)
React Development Architecture	Enterprise-grade React 19 architecture with modern Hooks, React Router 7 for seamless navigation, and Vite 7 build system. Future-proof, maintainable codebase enabling easy feature additions and scaling as your hospital grows.	₹6,000
Performance Optimization	Advanced performance engineering: intelligent code splitting, lazy loading routes, and image optimization delivering <2s load times on 4G. Fast sites convert 50% better - speed directly impacts patient acquisition.	₹3,000
Accessibility & SEO	WCAG AA accessibility compliance with comprehensive ARIA labels, semantic HTML structure, Open Graph meta tags, and Google Search Console verification. Ensures findability by search engines and usability for all patients including those with disabilities.	₹2,500

Subtotal: ₹11,500

4. Content Integration & Optimization

Item	Description	Price (INR)
Content Integration	Strategic integration of client-provided content with information architecture best practices. Professional content structuring ensures patients find critical information (services, doctors, contact) within 2 clicks from any page.	₹800
Media Optimization	Next-gen WebP conversion, intelligent compression, and responsive image sizing across all breakpoints. Reduces page weight by 60% while maintaining visual quality - critical for mobile users on limited data plans.	₹1,200

Subtotal: ₹2,000

5. Project Setup & Documentation

Item	Description	Price (INR)
GitHub Repository Setup	Professional version control infrastructure with Git best practices, structured commit history, and complete codebase documentation. Enables easy collaboration, rollbacks, and future developer onboarding.	₹500
Cloud Deployment Configuration	Production-ready deployment on Render cloud platform with custom domain (ramaswamyhospitals.com), SSL certificate, automatic deployments from Git, and CDN delivery for global performance. Zero hosting costs with enterprise reliability.	₹500

Subtotal: ₹1,000
